

# right part. right place. right time.

on-site services: installation, maintenance & more

## we don't stop at delivery

### NGL now offers access to world-class service and support

Whether your business involves kiosks, retail POS systems, digital signage, data storage/scanning/networking, printing or other related equipment, everything that happens after delivery is critical. That's why NGL has partnered with KODAK Service & Support. Now all your post-delivery needs, from installation and training to hardware/software maintenance and support, can be handled with a single call to NGL. Just let NGL know what needs to happen when it gets there, and we'll handle the rest, saving your organization time and money while increasing efficiency and customer satisfaction.

### NGL service and support solutions:

- Site inspection and preparation
- Placement and installation
- Startup and training
- Warranty/post-warranty service
- Preventative maintenance
- Software/hardware upgrades
- Depot repair
- Advanced unit replacement
- Service parts procurement
- Service parts planning

### One call handles pickup, shipping, installation & maintenance

With NGL's Managed Delivery/Final Mile Customization and new service and support offerings, your organization benefits from instant access to complete solutions from shipping to go-live.

- NGL is always on call. Access to 3,000+ service and installation professionals in 120+ countries means your organization enjoys faster response times from local service experts.
- You decide how you want it done. NGL offers scalable and flexible support with access to 24/7/365 Global Technical Response Centers and a wide choice of economical maintenance plans.
- With NGL's comprehensive, global network of hundreds of forward stocking locations, your mission-critical equipment and parts will be set up on time and on budget.

### Ship high-end equipment with confidence

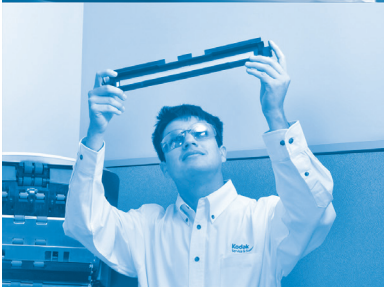

- NGL offers economical alternatives to the time and resource-intensive management of your own service operations, with reduced operational costs.
- With experts handling installation, your equipment goes online faster, increasing revenues and helping you avoid SLA penalties.
- As your business expands, NGL scales with you - without additional capital expenditure.
