Subacute Nursing and Rehabilitation at Renaissance Pavilion

What is subacute nursing and rehabilitation?

After the hospital, you may not be quite ready for home. You may need to rebuild your strength, increase your flexibility, and improve your walking and self-care skills.

Subacute nursing and rehabilitation is a short-term program. It is an inpatient stay for patients who need a link between hospital and home.

Who would benefit from Renaissance Pavilion?

Renaissance Pavilion is an excellent choice for many orthopedic conditions, including joint replacement surgery.

After your surgery, Renaissance Pavilion offers 24-hour skilled nursing and rehabilitative care in a warm and welcoming newly renovated wing.

Professional physical and occupational therapists help you to increase your range of motion and regain your independence as quickly as possible.

During your recovery our discharge planners will assist you in preparing for your return home.
